CURRENT EDITIONS:

This office makes every effort to obtain the most recent editions of all IFSTA, NFPA and other recommended publications. Since this list indicates only the latest material available when the list was compiled or revised, each Fire Department and Fire Protection District should also strive to keep its reference, study, and training material updated.

The local civil service board should make this study guide available to all applicants in whatever manner the board deems appropriate.

While there are no provisions requiring this office to provide study guides for any competitive or promotional examinations, such material will be provided as a service to assist applicants in preparing for an examination. The State Examiner's office has no control whatsoever over the local availability of reference material(mentioned in the study guides), nor do we feel constrained to limit examination questions to only that material which is available locally. Examination content, weighting of subject areas, and length of examination, may vary with each administration of an examination to reflect any updated job analysis information. Percentages and numerical estimations are provided as approximations.
